**Part III REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), receiving print stream data at a printer; detecting, at the printer, a network address in the received print stream data; if a network address is detected, then displaying or sending a message from the printer notifying a user and requesting authorization from the user to access the network address; if authorization to access is received from the user at the printer, sending on the Internet or other network, an access request for a document to the network address from the printer; retrieving the document from the network address at the printer; merging, at the printer, the document from the network address into the print stream data to form a modified document; and printing the modified document as claimed in claim 1.

Similar features are claimed in claim 19. Therefore, claim 19 is allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
